Subject: Approval to Access Flyway Property

Mr. Burton,

Approval is given to access the Flyway Property and to temporarily dismantle certain small sections of the fence in order to avoid having equipment on the highway. It is understood that 2 small areas of the Flyway project, one along Highway 37 and the other at the south end of the property, require minor remediation. It is further understood that the fencing will be reinstalled.

Please advise if there are any questions.
